

Thank you for your request for information received at Northampton General Hospital NHS Trust (NGH) on 20/03/2019.

For each of the OPCS codes below I would like to know the total numbers of patients which were treated/assigned the following procedures/codes for 2018:

Inpatient numbers only for this (i.e. daycase/main operating theatres)

Description: Rubber Band Ligation of Haemorrhoid

OPCS Code: H52.4

HRG: FZ23A

Total number of patients treated: 77

AND

A70.1 Implantation of neurostimulator into peripheral nerve. Total number of patients =

A70.4 Insertion of neurostimulator electrodes into peripheral nerve. Total number of patients =

Unfortunately we are unable to provide you with the information requested as a search of our databases did not produce any results for code A70.1 nor code A70.4.
