

Request under Freedom of Information Act 2000 – our ref: FOI 19/20_340

I write in response to your request under the Freedom of Information (FOI) Act.

I confirm that the Trust holds the information you requested. Please see the replies, set out against your questions.

We understand that a senate committee from the Royal College of Surgeons has recently visited Northampton General Hospital to assess the breast unit and as a result of this visit they have made some recommendations. We are looking to obtain a copy of the report which includes any recommendations.

There has been no report by the Royal College of Surgeons about the breast unit. A review was undertaken by the East Midlands Clinical Senate and the hospital has not yet seen a copy of the report.
