

Request under Freedom of Information Act 2000 – our ref: FOI 19/20_478

I write in response to your request under the Freedom of Information (FOI) Act.

I confirm that the Trust holds the information you requested. Please see the replies, set out against your questions:

1. *How many radiotherapy treatment sessions were rescheduled due to the linear accelerator(linac) they were due to be treated in being out of service for repairs or maintenance*

None; repairs and maintenance of machinery does not mean that any patients' appointments are re-scheduled. This is part of routine work and we have more than one machine to cover for this. We also have some weekend appointments available so that all patients have the scheduled number of treatments on a rolling programme.
