F1	General Internal Medicine	AIM
Trust		Site
Northampton General Hospital NHS Trust		Nye Bevan Assessment Hub NGH
Main Duties		
<p>The Nye Bevan is a large purpose-built Assessment Hub made up of Esther White and Walter Tull Wards with a total of 62 beds. It is designed to be a short-stay ward taking acute medical admissions across all specialities and stabilising patients prior to their transfer to specialist or generalist wards or discharge. Both wards have rapid turnover and often high acuity and EW is capable of delivering HDU level care including CPAP. Patients can be triaged here direct from ED and clerked in situ. Many patients can be turned around in 24-72 hours.</p> <p>It is therefore well staffed with high level senior support comprising a Team of Acute Physicians with Consultant input on every patient every day 7/7. There are two or more SpR level doctors on each ward (HST and SCF) and a large number of junior medics made up of those within the medical directorate and those in urgent care. Medicine provides this post, an additional FY1, two GpvTS, 3 ACCS, 4 IMT3. A very experienced team of Physician Associates are based here and our NYB is one of the leading training posts for these colleagues.</p> <p>This is a very popular post attracting the highest calibre graduates and giving excellent exposure to the whole range of acute medical emergencies. As well as a great starting block for those with a career in Medicine planned this post would provide a sound grounding for those who will leave this speciality for surgical, general practice and other career paths.</p> <p>The two F1 are usually based one on each ward. The Urgent Care team is deployed daily as needed between these two wards, the Same Day Emergency Care Centre and ED. On the NYB work starts with a Consultant wardround with a boardround led by senior nurse at the end of each morning. Your daily role will involve working as a team to assess all patients on the ward to promote their clinical progress. Senior support is readily available for case discussion. You will organise appropriate investigations, request necessary referrals and complete necessary documentation such as EDNs. There is ample opportunity to observe and practice procedures here.</p> <p>This post will allow the trainee to complete the majority of the Foundation Core procedures (DOPS) and the required work place based assessments can also be achieved. More challenging practical procedures might be attempted with supervision. The post demands good multidisciplinary team working which will easily be developed during the attachment.</p> <p>This FY1 post is likely to include on call OOH duties on the Medicine FY1 rota. This is a 1 in 11 rota as below.</p>		

Week	Mon	Tue	Wed	Thur	Fri	Sat	Sun
1					off	Ward cover	Wards
2	off						
3							
4				off			
5	off	off

Lunchtime	MDT		MDT	MDT	MDT
PM	Ward work	Self development time (flexible)	Ward work	FY1 Teaching	Ward work

Educational Activities:

All FY1 will have a trained and experienced Educational Supervisor that stays with them for the whole of their FY1 year and a Clinical Supervisor for each of their 4/12 attachments. On NYB the Clinical Supervisor will be an Acute Physician ensuring the FY1 gets the most benefit from educational and career development opportunities.

The daily MDT boardrounds and consultant ward rounds provide opportunity for in-depth discussion. The mandatory F1 teaching occurs weekly on Thursday afternoons and is protected time off the ward and bleep free. The FY1 teaching programme covers a wide range of the curriculum over the three rotations.

There is dedicated Acute Medicine on the Nye Bevan on Tuesday lunchtimes given by SpRs and Consultants.

All junior doctors will have the opportunity to complete supervised Quality Improvement projects of their own choosing. They will be supported in this by their Educational and Clinical Supervisors and the well equipped QiP department.

The medical education department comprises of medical education, simulation resuscitation and quality improvement academia. All junior doctors with a passion for education and/or quality improvement can work with the medical education team as faculty and support the delivery of education programmes for medical students and quality and safety programmes. All our faculty can attend an in house Train the Trainer course free of charge and are also offered a peer to peer review on their teaching sessions from one of the expert medical education senior management team.

Our STEP - Student Tutoring & Education Programme – is available for all medical students on placement at NGH. STEP is a programme aimed at providing additional formalised learning opportunities for medical students in order to enhance the educational experience already gained during their placements.

As part of STEP, teaching sessions are held once weekly in small groups (2-3 students). We encourage all FY doctors to become tutors on STEP and lead sessions.

Other Comments (if appropriate):

Our group is made up of Northampton General Hospital (NGH) NHS Trust and Kettering General Hospital (KGH) NHS Foundation Trust and was formed in 2020.

We deliver acute services from two main sites: Northampton General Hospital and Kettering General Hospital. We also provide care at several satellite locations including in Corby, Wellingborough, Irthlingborough, Danetre and GP facilities.

Both our hospitals are acute hospitals providing 24-hour emergency care.

We offer a full range of district general hospital care as well as some specialist services: NGH provides specialist cancer, vascular and stroke care for the county and KGH provides emergency cardiac care for the county. In total we have around 1,390 beds with 600 at KGH and 790 at NGH. We serve a population of approximately 900,000 people across the county and employ over 9,000 staff, making us one of the largest employers in Northamptonshire.

All our divisions are committed to doing things better with more efficiency as we update, modernise and advance. We have strong partnerships with University of Leicester and University of Northampton and are supported by the East Midlands Clinical Research Network.

Our excellence values are, respect, compassion, integrity, courage and accountability.
